Multipack® is a family business, specialized in small portion packs - white and brown sugar, coffee creamers, instant soluble coffee, salt, ground pepper, fruit and coconut sugar. We are situated in Bulgaria, a small country in Eastern Europe. The last 20 years we work with Special Brown Sugars from Mauritius, which has become our core business. We introduced to our market retail packs of 500g. We value Mauritius Special Sugars very much, as they have a wide variety and provide us with the opportunity to make different products, allowing us more shelf faces and different customers. We have customers who love the Dry Demerara in small portion packs – sticks and sachets. We have customers who cannot live without Dark Muscovado for their recipes. We use different varieties of Mauritius special sugars for our Multipack® Demerara Doypack & Multipack® Gold Demerara Doypack.
